The work on the protection and promotion of the family has a distinct emphasis on the promotion and protection of life issues. Further, since the culture of death has a disproportionate effect on the poor, a strong pro-life stance has therefore become necessary in the work for total human liberation.

Objectives of the pro-life ministry

- 1) To defend and advance the "culture of life."
- 2) To protect the right to life, upon which all the other inalienable rights of individuals are founded and from which they develop.
- 3) To preserve the family and its moral values, recognizing the sacredness and sovereignty of the family as the basic institution of society.
- 4) To establish a voice for the family against forces that seek to destroy the family and life, through fora, media and other channels of communication.
- 5) To provide information on, assistance to and continuing education for family, culture and life issues.
- 6) To promote the truth that "every crime against life is an attack on peace, especially if it strikes at the moral conduct of people."
- 7) To support CFC in its work of evangelization, family renewal and total human liberation.
- 8) To collaborate with all other religions and sectors of society in its campaign for life.

In other words, to be pro-God, pro-family and pro-poor is to be pro-life.
